**KEEP OUT OF REACH OF CHILDREN.**

**CAUTION**

**See additional Precautionary Statements**

**EPA Reg. No.: 2724-372-86806**

**EPA Est. No.: 48013-MT-045**

## ENVIRONMENTAL HAZARDS

This product is toxic to aquatic invertebrates. Using it in a manner other than that described by the label could result in harm to aquatic invertebrates. Do not contaminate water when disposing of rinsate or equipment washwaters.

## DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

## GENERAL INFORMATION

This pesticide product is to be used as a cattle feed-through pesticide for the control of horn flies. All feed ingredients listed on this product label must adhere to the specifications and limits (if applicable) ascribed by the Food and Drug Administration (FDA) for cattle feed use when mixed with this pesticide product. This product contains ethoxyquin, a preservative. The amount of ethoxyquin may vary according to the individual manufacturer's formulation and will not exceed the 150 ppm maximum limit established for ethoxyquin by FDA, per 21 CFR 573.380.

## FEEDING AND MANAGEMENT INSTRUCTIONS

Feed this product to cattle only. When used as directed, FLY SALT WITH ALTOSID® will provide sufficient S-methoprene insect growth regulator to prevent the emergence of adult horn flies from manure of treated cattle. Existing adult horn flies will not be affected. Start feeding before horn flies appear and continue use until cold weather marks the end of the horn fly season. Use the following management techniques to maintain continuous intake of FLY SALT WITH ALTOSID® at a level of ¼ to ½ lb. per 100 lbs. cattle body weight per month.

1. Assure cattle are not starved for nutrients in FLY SALT WITH ALTOSID® by providing them prior to feeding FLY SALT WITH ALTOSID®
2. Offer cattle 50 pounds of FLY SALT WITH ALTOSID® for every 15 head of cattle.
3. Remove all other self-limiting nutritional supplements while the cattle are consuming this product.
4. Locate FLY SALT WITH ALTOSID® where cattle congregate (watering, loafing, shade areas).
5. Replenish FLY SALT WITH ALTOSID® on a regular basis as needed.
6. If intake of FLY SALT WITH ALTOSID® is below ¼ lb. per 100 lbs. cattle body weight per month, increase the number of feeding locations and/or change location(s) to areas more frequented by cattle.
7. If intake of FLY SALT WITH ALTOSID® is above ½ lb. per 100 lbs. cattle body weight reduce the number of feeding locations and/or change location(s) to areas less frequented by cattle.
8. Introduction of this product after an adult horn fly infestation is established will require treatment of cattle with adulticides if immediate elimination of the adult fly population is desired.

**STORAGE AND DISPOSAL:** Do not contaminate water, food, or feed by storage or disposal.

**Storage:** Store in a cool place.

**Pesticide Disposal:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**Container Handling:** Nonrefillable container. Do not reuse or refill this container. Completely empty bag, then offer for recycling if available, or dispose of empty bag in a sanitary landfill or by incineration or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.
